

08/23/2021

We are happy to announce the launch of Manufacturers Funding, a capital equipment finance company.

Manufacturers Funding will offer competitive financing rates and with our close affiliation to Eurotech, Manufacturers Funding will be able to offer an incredibly competitive rate on the strong credit deals and funding on those tough credit deals that most banks and other financial institutions turn down.

At Manufacturers funding you customers will be offered:

- Simple, Fast, Convenient Process
- Flexible Payment Options & Terms
- Credit Decision Within Hours
- Preservation of Bank Credit Lines and Capital
- Potential Tax Benefits - Section 179

Special thanks to Mr. Dave Goose, whose guidance and advice in structuring this company has been invaluable. Manufacturers Funding will work closely with Manufacturers Capital, through Dave Goose. His expertise, direction, and assistance will help Manufacturers Funding turn the deals around quickly, helping you close more sales and be more successful.

Please call or email me or Mr. Dave Goose for any assistance. We will be reaching out to you this week to see if there are any deals we can help you with.

Thank you,

Angela Selway
